A prominent Canadian doctor who is bravely speaking out about the Wuhan coronavirus (COVID-19) "vaccine" damage he is observing in many of his patients is facing trial this March over accusations of professional misconduct.

Dr. Charles Hoffe is the subject of persecution at the hands of the corrupt Canadian government, which disapproves of his efforts to tell the ugly truth about how COVID jabs are destroying lives. Dr. Hoffe's trial is scheduled for March 4-8, and March 11-15, and the general public can watch the trial via Zoom starting on March 4, 2024.

In a letter that was shared to X, Dr. Hoffe explains how the Canadian government is accusing him of spreading "misinformation" simply because he continues to go public about the COVID jab injuries he is witnessing destroy the lives of many of his patients.

"My brilliant lawyer, Lee Turner, is planning to put public health on trial, to reveal their scientific fraud, the cover-up of evidence of harm and gross ethical violations of the vaccine rollout," Dr. Hoffe says.

"I have eight highly qualified expert witnesses, from Canada the U.S. and the UK, who will be giving testimony in my support."

Tell the College of Physicians and Surgeons of BC that you're watching

While the general public is free to view Dr. Hoffe's trial over Zoom, the Canadian government is making it really hard for people to do this. First of all, one must apply for a Zoom link at least seven days before the trial starts – which means you will want to apply *now* if you would like to participate in watching the proceedings.

"The College clearly does not want people to be watching this and has made it as difficult as possible to get a link," Dr. Hoffe warns. "Public opinion is their Achilles heel."

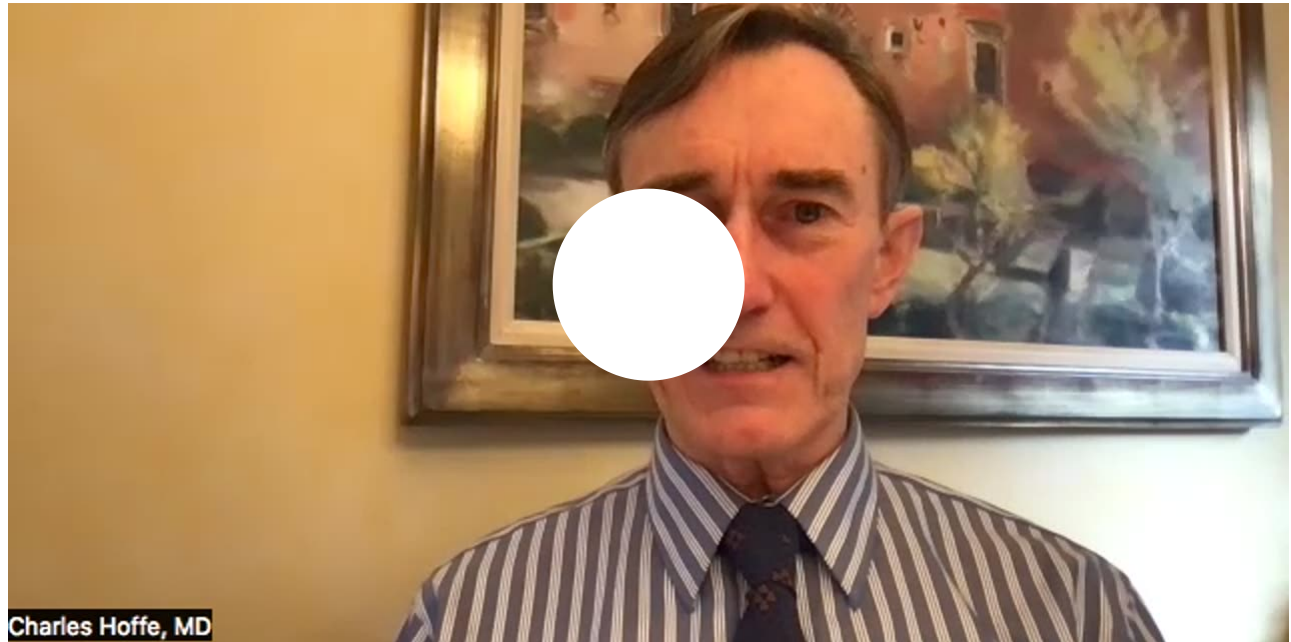

"And it is critically important that as many people as possible get this video link, and login periodically. The college needs to know that the world is watching them. Their corruption and dishonesty will be revealed."

The "college" Dr. Hoffe is referring to is the College of Physicians and Surgeons of BC, located at 300-669 Howe Street in Vancouver, BC, V6C 0B4 in Canada. To sign up, you have to print and sign this form, then scan or upload it back to your computer and email it to: . You can also write and mail a letter of complaint to the college about Dr. Hoffe's mistreatment using the above physical address.

Dr. Hoffe's legal costs are also extensive, as he recently notified his followers that he received a bill just the other day for \$36,000 from his lawyer.

Supporters are also encouraged to watch the following 26-minute video interview with Dr. Hoffe to hear more about what he is facing:

"They sure are making it difficult," complained one of Dr. Hoffe's supporters about the difficulty of printing out and re-scanning the signed documents to request virtual attendance at the trial.

"I'm away from home base and have no printer. In the current world in which we live, requiring we physically print this thing is beyond obstructive."

Another shared the following video of fellow freedom fighter Reiner Fuellmich who set up a grand jury three years ago pertaining to COVID jab injuries – Fuellmich is now reportedly in prison:

Watch on X

There is never a good reason to get injected with a Wuhan coronavirus (COVID-19) "vaccine" – unless you want to hurt yourself and possibly die.
